Expire Jan. 31: Preserves coupons 33 to 57; P coupons P1 to P25; all unnumbered preserves coupons issued for special purposes.  
Note: Sugar coupons 68 and 69 may also be used for preserves.

## Seven Bodies Brought Out From Plane Wreck; Investigation Held To Determine Cause Of Accident

Five Bodies Brought Out Friday Evening; Remaining Two Brought Out Sunday Afternoon; Clamp Down on News Releases.

Seven bodies have been recovered from the RCAF Dakota plane which smashed into one of the peaks of Ptolemy mountain on Saturday, Jan. 19. Five were brought out on Friday and the remaining two on Sunday afternoon. The bodies were taken to Crows' Nest funeral parlors where they were made ready for shipment to their respective homes.

Severe weather conditions hampered rescue work and members of the rescue party found the going extremely difficult. However, they accomplished their task in finding and bringing out the bodies and examining the wreckage. Two investigating officers are presently in the Pass conducting an enquiry into cause of the crash.

Severe censorship has been clamped down on this accident and on Sunday reporters were told that further releases would come from Western Air Command. Forest rangers and members of the rescue party were forbidden to divulge any information whatsoever in regard to the accident. Even news pictures of the crash which had been promised the daily papers were subsequently withheld by Western Air Command.

More Bodies to Vancouver  
Vancouver, Jan. 29. CP — The bodies of seven airmen killed when an RCAF Dakota plane crashed near Coleman, Alberta, are being brought to Vancouver, it was announced today by Western Air Command. Identification will be carried out at Vancouver.

A court of inquiry has been ordered in conjunction with the crash of the plane Jan. 19 while on a training trip from Comox, BC, to Winnipeg. The plane apparently crashed into the side of a mountain 10 miles southwest of Coleman.

Hazardous Trip  
Vancouver, Jan. 29. CP — Maj. R. E. Nourse, on his return here

yesterday, told of the fight he and five other men had to reach the wrecked RCAF Dakota plane that crashed on Mount Ptolemy, killing the crew of seven. The plane was on a flight from Comox, BC, to Winnipeg.

Maj. Nourse, former chief instructor of army mountain warfare, said extreme cold and 30-foot snow drifts made the trip hazardous. The men fought their way to the 7,000-foot level on snowshoes, and on the return trip they averaged three miles a day carrying the bodies on toboggans to Blairmore, Alberta.

## Nomination Day, Monday, Feb. 4

Monday, Feb. 4, Will be Nomination Day for the Municipal Elections.

There will be three vacancies on the council. Mayor Frank Abousafy last year went into office to fill the unexpired term of one year of ex-mayor Fred Antrobus. Mayor Abousafy has expressed his intention of seeking re-election as mayor. Councillors Lowe and Wilson have completed their terms. Councillor Lowe has been in office three years while Councillor Wilson went into office last year to fill the unexpired term of Councillor Abousafy who had become mayor.

Councillor Wilson has voiced his intention of seeking re-election. Councillor Lowe is expected to seek re-election on the Labor ticket and on Wednesday morning it was stated by a union official that should Mr. Lowe care to stand for re-election the union would be only too pleased to once again nominate him on Monday.

There are two vacancies on the school board, they being Mr. Dave Holly and Mrs. Ann Vasek. Nothing definite could be secured by The Journal on Wednesday morning as to the intention of either trustee.

Don't forget — your Christmas Seal dollars are still needed.

## INTERNATIONAL FIRST AID TEAM 30 YEARS AGO

BACK ROW: left to right, D.C. Robert, R. H. Greenhalgh, John D'Andrea, R. M. Morgan.  
FRONT ROW: O. E. S. Whiteside, William White, Di. Davies.

First aiders and old timers will view with interest the above picture, for on it appear men who were instrumental in laying a strong base upon which the Coleman branch of St. John Ambulance Association has been built.

Dave Robert and Dick Greenhalgh still reside in Coleman and Dick particular has lost none of his love for First Aid. John D'Andrea moved to Fernie a few years back. The others, R. M. Morgan, O. E. S. Whiteside, Wm. White and Di. Davies have passed on, but their names still live among Coleman First Aiders who continues to build up the local association till it now ranks in strength with any in Alberta.

The team above was organized in 1916 and took part in the First Aid competition held at Coleman on July 1, 1916, under the auspices of the Rocky Mountain Branch of the Canadian Institute of Mining and Metallurgy and was awarded first prize in the competitions.

This team, with changes in its personnel from time to time in accordance with rules governing the Dominion and Provincial competitions, has, over a period of years, been very successful in First Aid competitions. It has won since 1916 the following trophies:

Montzambert Cup, emblematic of the Dominion Championship, open class, won once, runner-up twice.

Coderre Cup, Canadian Miners' Championship, won three times. Alberta Championship, won shield twice.

R. M. Branch of Canadian Mining Institute, won silver medal three times and was runner-up three times.

McGillivray Cup, C. N. P. First Aid Association, won once and runner-up once.

The large trophy in the picture is the Montzambert Cup, emblematic of the Dominion open championship, and the smaller trophy is the Coderre Cup, emblematic of the Dominion miners' championship, which the team won in one year's competition.

The Journal is indebted to Dick Greenhalgh for the picture and for the history of First Aid activities contained in this story.

In addition to the above team, men such as Archie McCulloch, Jack Rushton (secretary-treasurer for the past 21 years), E. X. Hill, Ephraim Hill, Ernie Hill, Harry Parkinson (who captained a team which brought Coleman Dominion honors one year), Jim Glendenning, rank high in the history of the local association.

The association is fortunate in having the full support of mine officials. These men, too, have worked at the coal face, they have seen accidents and know the relief that can be administered an injured man by men trained in First Aid.

## FIRE DAMAGES BELLEVUE TIPPLE

Fire of unknown origin, but thought probably caused by spontaneous combustion, broke out about 7 p.m. on Saturday, destroying the rock dump, rotary dump and house coal chute at the West Canadian Collieries' tipple at Bellevue. Loss is estimated at \$50,000.

The Bellevue and company fire departments were assisted by the Blairmore fire department truck, and it took four hours to bring the blaze under control in cold temperatures and a heavy wind.

There has been no interruption of work at the Bellevue mine and no one was injured in the fire.

## Mr. and Mrs. Harry Gardner Left Coleman To-Day

Have Taken Up Residence at Blairmore Where Mr. Gardner Has Been Promoted to Superintendent of West Canadian Collieries Limited.

Coleman is to lose today two of its young citizens in the persons of Mr. and Mrs. Harry Gardner. They have left for Blairmore where they will make future residence. Mr. Gardner recently was promoted to superintendent of West Canadian Collieries at Blairmore.

It was back in 1925 when Harry, then a mining student at Alberta university, came to Coleman during the summer recess to gain practical experience in a coal mine. Following his obtaining his university degree he came to Coleman where he secured employment with McGillivray Creek as an official, rising to the position of mine manager.

In 1939 he left the employ of McGillivray Creek and accepted the position of mine manager of West Canadian Collieries at Blairmore. Despite the fact that his employment was at Blairmore, he and Mrs. Gardner maintained their home in Coleman. Recently he was promoted to the position of superintendent of West Canadian Collieries. A home has been found them in Blairmore and they have sold their beautiful home here.

Mrs. Gardner, nee Hilda Clifford, came to Coleman in 1928 and was engaged on the public school staff where she taught for several years. She resigned from the staff following her marriage to Mr. Gardner.

During their stay in Coleman they have taken an active interest in the social life of the community. During the years when senior hockey was enjoyed in Coleman, Harry was the club president. He was also a charter member of Coleman Lions club. Mrs. Gardner has taken keen interest in the Red Cross Evening Group and was recently honored by the Group with a small gift in expression of their appreciation of her interest and work. The bridge club also honored Mrs. Gardner prior to her departure from Coleman.

Their many Coleman friends express their regret at the Gardners' departure from Coleman, but join in wishing them happiness in their new home in Blairmore.

Mrs. J. Kerr entertained on Monday evening in honor of Mrs. H. H. Gardner, who is shortly leaving with Mr. Gardner to take up future residence at Blairmore. Three tables of bridge were in play, honors going to Mrs. J. Naylor, Mrs. Les. McDonald and Miss Helen Dibble. The travelling prize was won by Mrs. F. Graham.

## Council Cleans Up Old Business

Cleans Up Work Preparatory to New Council Taking Office Next Month.

Regular meeting of the council was held on Monday evening. Present Mayor Abousafy, Councillors Cox, Dutil, Lowe, Wilson and Ramsay.

No new business was transacted as council confined itself to cleaning up old business before a new council came into office next month following the municipal elections.

Wm. Martland, town assessor, was present and gave council a report on his activities during the past three months. Council gave him in every way to keep the town clean.

An appeal was received from the Salvation Army. The letter was tabled until the 1946 estimates were brought down by the new council.

A letter was received from Coleman's Miners' Hospital Board stating it would not assume any liability for the maintenance of a Mr. Pedosak in the Macleod General hospital. Letter was filed.

A former relief recipient, now working, asked council why her monthly relief allowance had been discontinued. A letter was authorized to be sent informing her that relief is only granted to indigent cases and she no longer is classified in that category.

The monthly report on the volunteer fire brigade was received. It revealed five practices, five fighters turning out on three occasions and six men on two occasions. Wages amounted to \$28.50.

Fire Chief Antle stated that the hydrant on the west end of Second street had to be dug out of the snow and ice and suggested that it be raised. Council asked secretary to write Coleman Light & Water Co. to cause the hydrant to be raised.

Councillor Ramsay informed the council that he understood that the new Ford truck which council had purchased to be used as a fire truck would probably be delivered this week.

Some years ago it was found that Dave Gillespie's residence and another owned by Charlie Sartoris and now owned by Jonty Caroe had been built on a road allowance on the flat. At that time council endeavored to have the houses remain where they were and change the road allowance. This was necessary in order to secure the title deeds for the owners for their homes. This week secretary Gladys Lees received blueprints showing where the road allowance had been changed and accompanying the blueprints was an invoice for \$80. The matter was tabled until town solicitor Bannan gave council an explanation of the entire matter. Mr. Gillespie and Mr. Caroe will now be able to secure title deeds to their properties.

Invoices passed for payment included: Collins & Collins \$150.00; Light & Water \$20.88; Coleman Hardware \$2.45; Dominion Rubber Co. \$23.50; The Coleman Journal \$125.85; King's Printer \$1.60; Toppanno's Store \$48.00; Zak's \$28.00; Holyk \$44.20; Coleman Meat Market \$27.36; Macleod General Hospital \$24; Modern Electric \$23.79; The Motordrome \$3.70; Coleman Motors \$18.40; White Rose Service Station \$19.20; Mothers' Allowance \$40; Old Age Pensions \$397.21; McGillivray Creek Coal & Coke Co. Ltd. \$24.88; International Coal & Coke Co. Ltd. \$11.74.

## Dog Licenses!

## Take Notice!

OWNERS OF DOGS should purchase licenses for 1946 forthwith. Tags are now available at the Police Office, Coleman.

The fee for dogs is as follows:

Dogs .....\$2.00 Female ..... \$ 4.00  
Police Dogs .....\$5.00 Female ..... \$10.00

Dogs not wearing tags after March 31st, 1946, will be impounded and if not claimed, will be destroyed without further notice.

Coleman Town Council  
WM. ANTLE, Chief Constable.

## Mrs. Mike Kovac Passed Away On Monday Morning

Born in Slovakia; Suffered Lengthy Illness; Funeral Held This Morning.

The death occurred at the local hospital on Monday morning of Mrs. Susan Kovac, 60, beloved wife of Mike Kovac, of West Coleman.

Born at Benusovec, Liptov, Slovakia, she grew into young womanhood in that country and married Mr. Mike Kovac. They came to Canada in 1907, residing at Bankhead, Alberta, for fifteen years, Mr. Kovac being employed at the coal mine in this village. In 1922 they came to Coleman, where deceased had made her home till her death.

Mrs. Kovac was well liked by all

who knew her and she took a keen and active interest in church work.

Surviving are her husband, a daughter, Mrs. Stan Worboys (Irene), of Lethbridge, a son, Milan, recently returned from overseas where he was with the RCAF and who is now employed with the CPR at Lethbridge, one grandson, one sister, Mrs. Yanota, and two step-brothers, Karl and Joe Maycrchuk, of Coleman.

The funeral was held this morning, services being conducted by Rev. Leo Sullivan at Holy Ghost church. Interment took place in the Coleman Catholic cemetery.

**WINS U.N.O. ELECTION**—Hennipaa, once a power in the League of Nations, defeated Norwegian Foreign Minister Trygve Lie for the first U.N.O. assembly presidency by a vote of 28 to 23. The election of the Belgian was a defeat for Russia and the bloc of eastern Europe, which had sought to elect Lie by acclamation and avoid the secret balloting.

## SMILE AWHILE

No other country can produce much splendid grain for export. The prairies have often been called bread-basket of the world. In the critical months of food shortages, West is living up to its name of world granary and the wheat surplus is being put to good use.

## Ready For Attack

"With the possibility that Canada, in the foreseeable future, conceivably might be a target for attack by space ships, atomic explosives, long range aircraft operated by radio and robots, or high speed weapons of bacteriological warfare, we cannot do any less than keep a permanent air force on the top line of preparation. An efficient modern air arm, working hand in glove with scientific research, is the strongest insurance against aggression," he added.

## MANY MEN WILL BE NEEDED FOR CANADA'S NEW ACTIVE AND RESERVE ARMY BEING FORMED

OTTAWA. How Canada's active and reserve army will be directed, trained and administered for service as an immediate striking force in United Nations security and as a field army in time of emergency was outlined at a press conference here at which divergent views were expressed on how the 265,000 men should be raised.

Defence Minister Abbott announced the general blueprint for the post-war army organization had the general approval of the Canadian Defence Associations. Lt.-Col. W. F. Hadley, of Hull, Que., chairman of the important non-official groups, said it was the "greatest step forward" taken by the army, but added "we are just wondering how they are going to recruit that many men without compulsory service."

The two men sat with Lt.-Gen. Charles Foulkes, hard-working chief of the general staff, and pleasantly argued, respectively, for voluntary and compulsory service.

Mr. Abbott said he thought attractive rates of pay and other popular conditions would bring the required number of men for the active army, which he hinted might be expanded beyond the announced 250,000 figure. He also thought an attractive program, which included the use of permanent force staffs and modern battle equipment would entice civilians for the 150,000-man establishment of the reserve force.

The pre-war active force numbered about 4,000 all ranks while the greatest number of reservists in training at any one time during the pre-war period was 40,000.

Col. Hadley, suggesting a modified type of universal service, said he thought it could be fitted into the reserve army plan with men doing three years service with the force and attending 30 training sessions a year, together with summer camps. This is the schedule volunteer reservists will be asked to follow.

Mr. Abbott gave the breakdown of the active force in which he indicated it would have a striking head of about 10,000 men in an air landing brigade group. This compact unit will train as an entity and using troop-carriers, gliders and transports will be able to launch an all-out airborne assault at a moment's notice taking along everything from Bren guns to junior tanks.

### CLEARER RECEPTION

Alberta Government Applies For A Frequency Modulation Wave Length

EDMONTON. — The Alberta Government has applied to the Canadian Broadcasting Corporation for a frequency modulation wave length that would greatly increase the clarity of broadcasts from the government's radio station CKUA. Works Minister W. A. Fallow said.

The minister said he did not know how many other radio stations had made application for frequency modulation but that CKUA "certainly was one of the first."

### READY TO JOIN

LONDON. — Argentina said she was ready to join the United Nations Relief and Rehabilitation Administration and had already contributed one per cent of her national income in foodstuffs and other goods to the relief of war-ravaged countries. Argentina is one of the five United Nations not in UNRRA.

## GEN. MacARTHUR'S SPOKESMAN REBUKES TASS NEWS AGENCY FOR FOMENTING DISTRUST

TOKYO. — General MacArthur's spokesman rebuked Tass News Agency for lending itself to what he termed "a definite program to discredit" the Allied supreme commander in Japan and "force further changes in the present occupation policies and command."

He referred specifically to a Tass dispatch from Hijo, Korea, which said:

"The behavior of the American Command in Southern Korea astonishes one. It has assumed a position of inspiring reactionary demonstrations against the decisions of the Moscow conference of foreign ministers in which, as is known, the government of the United States participated."

Southern Korea is under the direct command of Lt.-Gen. John R. Hodge, but is included in Gen. MacArthur's jurisdiction. The Russians control Korea north of the 38th parallel.

"It is known," Gen. MacArthur's spokesman said, "that the Japanese have gone out to all opposition forces, including the so-called Communist party members in Japan, to do their utmost to discredit MacArthur."

### WHEAT PRODUCTION

Dominion Bureau of Statistics Gives Third Estimate For 1945

OTTAWA. — Production of wheat in Canada in 1945 was estimated by the Dominion bureau of statistics at 255,912,000 bushels valued at \$224,227,000, compared with a 1944 crop of 416,632,000 bushels valued at \$440,427,000.

The figures were given in the bureau's third estimate of 1945 field crops.

The reduction in cash value was attributed entirely to lower production as the average farm value of wheat per bushel remained steady at \$1.06 for the two years.

Wheat production in the prairie provinces during 1945 was estimated at 282,000,000 bushels against 391,700,000 in 1944.

The 1945 oat crop totalled 381,600,000 bushels, compared with 496,600,000 bushels. The 1945 barley crop, now estimated at 157,800,000 bushels, was below 1944 production of 194,700,000 bushels. Rye production for 1945 at 5,500,000 bushels compared with 1944 production of 8,500,000. Flaxseed production at 7,600,000 bushels was 2,100,000 bushels lower than 1944 production.

With the exception of flaxseed and rye, the average values per bushel at the farm for the major field crops were approximately the same as in 1944.

### CAR PRICES HERE

Will Be Closer To U.S. Prices Than For Several Years

TORONTO. — Prices for 1946 automobiles for Canadian purchasers will be closer to those of equivalent cars in the United States than they have been for a number of years, the Financial Post reveals in a study of ceilings prices issued by the Canadian price board and the office of price administration in the United States.

Direct comparisons are limited to Chrysler products, the only ones for which ceilings have been announced by both countries, but automotive company officials believe top prices for other makes will follow a parallel course.

There are two reasons for the comparative decrease.

1. U.S. ceilings are based on 1942 levels and Canadian ceilings on 1941 prices and there was a noticeable price increase between the two years.

2. The current exchange of 10.5 per cent means American prices will be that much higher when calculated in Canadian dollars.

### BEEF SUGAR

Southern Alberta Sugar Acreage To Be Maintained

LETHBRIDGE. — Expectations that southern Alberta's sugar acreage for 1946 would be set at 20,000 acres were expressed in an interview by Phil Baker, president of the Alberta Sugar Beet Growers' Association. This was the acreage grown during each of the last two years.

The harvest from 20,000 acres produced 262,000 tons of beets in southern Alberta last year, the average yield being slightly more than 13 tons per acre. Beets averaged about 17 per cent in sugar content and the sugar extraction has been running 300 pounds of sugar for every ton of beets.

## GEN. MacARTHUR'S SPOKESMAN REBUKES TASS NEWS AGENCY FOR FOMENTING DISTRUST

"It is a deplorable condition when some of the dissonant Press of the world continues to incite and foment international mistrust," whereas "now, more than ever, every effort should be more toward understanding and agreement."

He added: "It can be expected that continuing critical attacks will flow from the left-wing Press of the United States" as well as other countries, and that momentary setbacks in the campaign "will merely spur these elements to a more studied plan of attack."

He denounced particularly reports which "incite suspicion in international circles," and cited as an example a recent report that Gen. MacArthur had opposed the use of Russian troops in his command.

### WARSHIP ARRIVES

VICTORIA. — H.M.C.S. Crusader, 1,500-ton Crescent-class destroyer, and Canada's newest warship, arrived here January 22, with two officers and 10 other Canadian army ranks from Portugal, Eng. The ship left Britain Dec. 15 and came by way of the Azores, Jamaica, Panama and San Pedro. 2657

APPOINTED ADJT.-GENERAL—

Maj.-Gen. Ernest G. Weeks of Ottawa has been appointed adjutant-general of the Canadian army to succeed Maj.-Gen. A. E. Walford, whose retirement was announced. Maj.-Gen. Weeks recently returned from overseas where, after service in Italy and northwest Europe, he became major-general in charge of administration at C.M.H.Q. in London.

### PLANNING TO RETIRE

Earl of Halifax May Return To England In May

WASHINGTON. — The Earl of Halifax, British ambassador to the United States, is planning to retire this spring, probably in May, it was learned here.

Reports from London have mentioned Sir Archibald Clark Kerr, present British ambassador to Moscow, as the Labor government's choice to succeed Lord Halifax.

Lord Halifax is reported planning to return to his ancestral home in Yorkshire.

### FAIR DATES

WINNIPEG. — Dates of exhibitions on the class B circuit were announced here following an executive meeting of the Western Canada Fair Association. The dates are: Weyburn, July 1-2; Moose Jaw, July 3-6; Estevan, July 8-9; Portage la Prairie, July 11-13; Yorkton, July 15-17; Melfort, July 18-20; Lloydminster, July 22-24; Vermillion, July 25-27; Vegreville, July 28-31; Red Deer, Aug. 1-3; North Battleford, Aug. 5-7; Prince Albert, Aug. 10.

MOUNT EISENHOWER—This towering peak, formerly Castle Mountain, was selected as the enduring tribute to the achievements of the commander-in-chief of the victorious Allies.

INTERLUDE IN MOSCOW CONFERENCE—Ernest Bevin, British Secretary of State for Foreign Affairs, is shown (seated) with Sir Archibald Clark Kerr, British ambassador to the USSR, as they worked in the British Embassy between meetings of the "Big Three" foreign ministers at the Soviet capital recently.

A LONG WAY FROM CORREGIDOR FOR COMMANDER—General Jonathan M. Wainwright, recovering from his ordeal at the hands of Japanese captors in the Philippines, recalls old cavalry days at Fort Bliss, Texas, on a recent visit there. He is pictured with S-Sgt. Bob Smith of the First Cavalry Division, who served under him, and "Reno Noble", champion horse at the fort.

## URGES PLAN TO DRAW WESTERN EUROPE INTO A TIGHT-KNIT ECONOMIC DEFENSIVE GROUP

EACH GETS SHARE

German Fleet Is To Be Divided Among Big Three

LONDON. — A British and Russian communique said that "operable surface units" of the German fleet together with 30 submarines, would be divided equally among the Big Three.

A total of 1,789 ships is involved — two cruisers, 30 destroyers and torpedo boats, 20 submarines, 48 depot ships and 1,679 "other units", including minesweepers, harbor patrol craft and similar ships.

Besides the 10 U-boats apiece, each country gets: United States—The 10,000-ton cruiser Prinz Eugen, seven destroyers and torpedo boats, 12 depot ships and 560 other units. Russia—The 6,000-ton cruiser Nürnberg, 10 destroyers and torpedo boats, 15 depot ships and 507 "other units". Britain—13 destroyers and torpedo boats, 21 depot ships and 612 other units.

All of Germany's battleships were sunk during the war and the split-up leaves Germany with no combat navy.

### WILL LEARN MUCH

Moskov Expedition May Clear Up Many Secrets Of North

CHURCHILL, Man. — Canada will "know a lot of the answers about the Arctic" as a result of Moskov—the combined Army-Royal Canadian Air Force expedition over 3,200 miles of the Northwest Territories this winter.

Group Capt. D. A. R. Bradshaw, director of operations at R.C.A.F. headquarters, said here.

He advised all members of Moskov to keep "experimentally minded" during the trek.

He said that scientists, both military and civilian, making the trip would clear up many of the secrets of the north magnetic field and obtain invaluable information about weather prediction which would benefit all Canadians.

### WINS HIGH AWARD

Australian Is 17th Winner Of V.C. During Second War

LONDON. — Pte. John Partridge, Australian infantryman who put a Japanese bunker on Bougainville out of action with a grenade, has been awarded the Victoria Cross, the London Gazette announced.

The private in the 9th Australian infantry division first attacked the enemy bunker with a grenade, then killed the remaining Japanese occupant with a knife, the Gazette said.

Partridge is the 17th man to win the V.C. during the Second Great War. Thirteen Canadians have won the coveted decoration.

### CHINA TRADE PLANNED

VANCOUVER. — The Vancouver Daily Province in a newspaper story said that some leading Canadian industrialists and prominent Chinese banks have inaugurated plans to study the possibility of "a large two-way trade" between the two countries.

LONDON. Setting forth what he called a British "intelligent neighbor" policy for Europe, Lord Vansittart urged the house of lords to consider steps toward drawing the western part of Europe into a tight-knit economic and defensive group under the leadership of Britain and France.

He declared Britain should take the lead toward establishing a western continental group of powers to match what Russia was doing in eastern Europe and the United States in North America.

Lord Vansittart, leading British advocate for a "hard peace" for Germany and chief diplomatic advisor to the foreign office from 1938 to 1941, referred to "American opposition" to a western European bloc and declared:

"Every sane American knows that western Europe was a bastion of American defence in two great wars. It is in America's interest to see that western Europe is strong and it cannot be strong unless it is prosperous."

"Why Russia has opposed this western integration is a mystery," he declared.

He urged the Labor government to "proceed without delay to the closer integration" of Europe which "should consist in the first instance of Britain, France, the Netherlands, Belgium, Luxembourg and Scandinavia."

"I predict today that the only alternative to the policy that I am propounding will be the eventual decline of the west," Lord Vansittart said.

In the house of commons, Ivor Thomas, parliamentary secretary of the ministry of civil aviation, advocated a "world authority" to regulate international air traffic—an authority for which he said the world is not yet ready.

Mr. Thomas also announced that the ministry of civil aviation would buy five American Lockheed Constellation "which will enable the British overseas airways to operate a daily service across the North Atlantic beginning probably in July."

### PRICE OF SUGAR

Canadian Retail Prices Will Remain Unchanged

OTTAWA. — An expected increase in the price of imported raw sugar will be absorbed through the sugar stabilization fund, built up over the last few years, with Canadian retail prices remaining unchanged, the prices board said.

"There is no intention of authorizing any increase in the price of sugar in Canada," said a board statement, referring to a Washington report that sugar prices in the United States will be raised by possibly a half-cent a pound next month to meet the anticipated increase.

An increase in returns to Canadian sugar beet growers this fall announced several weeks ago also will be granted without increasing the price of sugar to consumers. The increased assistance on beet sugar will amount to 60 cents for every 100 pounds, the entire amount going to the growers to increase their returns by approximately \$150 a ton.

## PRAIRIE FARMERS ARE ASKED TO INCREASE GRAIN DELIVERIES TO MEET THE NEEDS OF EUROPE

WINNIPEG. — Plans for a continuous flow of export grain to the war-starved peoples of Europe call for the aid of prairie farmers who have been asked to increase deliveries to country elevators.

Shortage of wheat supplies in Canada and the major exporting countries will have to be met with available supplies of other food grains.

The Canadian wheat board made an appeal to prairie farmers for early delivery of grain stocks.

Sufficient wheat will not be available from exporting countries to meet the needs of Europe before next harvest and there will be an increased demand for oats, barley, rye and corn supplies from North America.

The board said the countries of continental Europe are facing a food crisis of serious proportion, and urged prairie producers to do "your utmost as long as we have cereals available for export."

Marketable stocks of wheat in farmers' bins are only about half what they were a week ago. In lakehead storage there are only 17,000,000 bushels of wheat compared with 47,000,000 a year ago, and stocks are low in country elevators.

Producers have marketed 180,000,000 bushels of wheat during the present crop year compared with 232,000,000 for the same period of 1944.

Stocks in country elevators total about 60,000,000 bushels.

"There is not enough wheat available for export from the chief exporting countries to meet requirements for the first six months of 1946," said the board.

"It is apparent that if the problem in Europe is to be met, it will be necessary during the next six months to use substantial quantities of grains other than wheat for human consumption."

During the last week Canada has made available 5,000,000 bushels of oats for shipment to Europe where it will be used for human consumption.

Beasts constitute the most important item in the daily ration of the near-starved Europeans. There is an acute shortage of meats.

With shippable stocks at the lakehead ports of Port Arthur and Fort William low, the board plans to build up available supplies for the opening of navigation.

"We would like to have marketable supplies delivered into country elevators so that the shipments to the lakehead can be stepped up in the next three months," a board statement said.

Producers were warned to keep necessary stocks of grains for seed, livestock feed and farm reserve, but were urged to speed up delivery of all grains intended for market.

## HOUSES

You can have a complete house shipped in one carload from the West Coast, including windows, doors, flooring, shingles, everything, in two weeks time. All pre-cut and fitted, ready to assemble.

Christmas Seal dollars help to find the unknown cases of tuberculosis, the ones that are the great source of infection. Your contributions are still needed to continue this great work.

TO BE POPULAR as a hostess, serve Maxwell House Coffee. It contains choice Latin-American coffees . . . the finest obtainable. It's blended by experts with traditional knowledge and skill.

## Cars Will Last Twice As Long

That is another thing that good roads in Alberta will do for motorists. Good roads will extend the life of our cars and trucks, cut down expense bills, and contribute enormously to motoring, safety and pleasure.

These are things to think about in considering an improved road system, besides the tourist trade that it will bring, and the encouragement it will give to business within the province.

Good roads will benefit every resident of this province. It is to your advantage to press for a road building program, by talking about it, by urging any group to which you belong to send a resolution to the provincial government, and by asking your provincial member to vote for such a program. We need action—now.

If you are a car owner, you can add your voice to the campaign of the Alberta Motor Association by becoming a member. You will find the many services provided by A.M.A. membership far outweigh the modest fee of \$10 a year. Get in touch with your nearest A.M.A. office—in Calgary, Edmonton or Lethbridge—for full information.

## NOTES AND COMMENTS

### REGRETTABLE ACCIDENT

The accident which occurred to the RCAF Dakota plane southwest of here on January 19 was a most regrettable one. It was the first accident to occur on the Crows' Nest Pass route from Lethbridge to Vancouver and took the lives of seven innocent victims.

We do not know what caused the accident, whether it was engine trouble, icing or what, but like many others we try and look around to see what safety measures can be found to try and make the route just a little safer. We have an emergency landing field here, but, unlike the Corvex field, it is not lighted throughout the night. In fact there is absolutely no lights in or near the field. Why can't this field be lighted at night? What does cost matter when lives can be saved by a proper illuminated emergency field? Traffic over this route is increasing yearly, why can't large organizations using it regularly combine to light emergency fields and thus give added protection to the pilots and passengers?

### FORESTERS SAVED GOVERNMENT MUCH MONEY

The finding of the wrecked RCAF Dakota plane by three members of the forest service saved the Dominion government quite a sum of money. Prior to the finding of the plane, planes had been overhead from early morning till late afternoon in a vain search for the missing aircraft. The planes had to be refueled time and again, headquarters had to be set up at Lethbridge, a rescue squad was standing by in the latter city, hotel accommodation and resultant expenses had to be met. It is the consensus of opinion here that searching planes would never have found the wreckage. As it was the rangers had to actually walk almost on top of the wreckage before they saw it. It was invaluable from their temporary camp 150 yards away. Everything considered quite a sum of money has been saved by the work of three volunteer searchers.

### NELSON BOOSTS SOUTHERN TRANS-CANADA HIGHWAY

The Nelson Board of Trade has taken upon itself to sponsor interest and activity in the southern Trans-Canada highway. Letters have been sent to organizations and individuals between Medicine Hat and Hope, B.C. in an effort to stir up interest and have organizations

endorse Nelson's action in petitioning the Prime Minister to have the Federal government contribute to the improvement of the highway between Medicine Hat and Hope.

Seven points have been listed in the letter to the Prime Minister, they being:

1. Road open 365 days in the year against the Big Bend's five month's yearly average;
2. Most thickly populated areas of the BC province is served by the southern Trans-Canada highway;
3. It traverses a territory considerably more developed industrially than that adjacent to the Big Bend, mentioning the coal field of the Pass, Trail smelters, etc.;
4. The BC Public Works Dept. has under construction a 40-car capacity steel ferry for the Kootenay lake crossing;
5. Scenic beauty of the Rockies and Kootenay Lakes;
6. Within a relatively short distance of the States and Canadian border and can link up with States highways;
7. Relieve the unemployment situation which presently exists.

Coleman town council will endorse Nelson's action at its next meeting. It is also possible that local organizations will add their weight to the BC letter.

Only by persistent effort can this Trans-Canada highway be recognized by the Federal government as an important link between the prairie provinces and British Columbia.

### HIGHER WAGES COMING

Wage rates in key US industries are fairly certain to be upped soon by at least 17 or 18 per cent; and this is likely to bring pressure for widespread easing of wage controls in Canada, declares the Ottawa correspondent of The Financial Post.

For nearly three months the cabinet at Ottawa has been dallying with minor changes in the present wage ceiling. It had been intended originally to announce these changes nearly two months ago, effective Jan. 1. At present, they are before various provincial, labor and management groups for study and discussion. It is still hoped these may be agreed upon in time to become effective Feb. 1.

Essence of the changes is to return control of minimum wages to the provinces and to permit wage rates to go up or down by 5 per cent or 5 cents an hour without any formal application or approval to wage labor boards. No strong discussion to these changes is anticipated.

and the children are being taught to know, love and serve God and trained to be worthy members of his church.

We have a most loyal choir and tribute was paid to those who never miss.

St. Alban's Guild is the life line of our church. Hearty congratulations and sincere thanks were expressed for their most loyal and efficient service.

The chairman expressed thanks for gifts—a light in the sanctuary, altar kneeler in memory of Airman Arthur Pettifor, a prayer book in memory of Harold Houghton. To conclude, the chairman expressed thanks to those who had given their service and offerings and assisted in the work. We pray the weak may be strengthened, the careless and indifferent brought to a sense of God's love for them and their responsibility and privilege to love and worship.

The people's warden, Mr. F. H. Graham, presented a splendid report, showing all obligations paid, stipend, assessment, etc., with a credit balance on hand. A hearty vote of thanks was extended to Mr. Graham by acclamation.

The annual report of St. Alban's Guild was submitted by the secretary, Mrs. W. T. Pettifor, and it was an excellent one. A substantial amount of money had been raised, much work done, to enumerate two—a concrete wall at the back of the parish hall, steps leading into the church—besides numerous other things. With a fair credit balance to begin 1946.

Mrs. W. E. Brown presented a very encouraging report for the Sunday school and choir.

The election of officers then took place, resulting in the following:

Rector's warden, W. T. Pettifor; people's warden, F. H. Graham; select vestry, Messrs. W. L. Borrows, S. C. Short, G. W. Derbyshire and James Ferguson; lay delegates to synod, Messrs. F. H. Graham and W. T. Pettifor; envelope secretary, Mrs. James Ferguson.

Votes of thanks were extended to the following: the two wardens, organist Donald Graham and Mrs. W. E. Brown, St. Alban's Guild, Mrs. Arthur Jones.

The chairman on the Bishop's behalf presented Mr. W. T. Pettifor with his lay-reader's license for 1946 with an appreciation for his services.

We thank God for progress and accomplishments of 1945 and the splendid spirit in which work is being done. May 1946 be a year of real spiritual advance.

The meeting closed with benediction.—Cont.  
A MOST

## The Churches

**ST. ALBAN'S CHURCH**  
Rev. W. E. Brown, Rector  
Daily offices:  
Matins 9 a.m. Evensong 7.30 p.m.  
Friday: Choir practice 3 p.m.  
The fourth Sunday after the Epiphany:  
Holy communion 8 a.m.  
Holy Eucharist 11 a.m.  
Young people's service 2 p.m.  
Holy baptism (by appointment) 3 p.m.

Sunday next Rev. C. J. Brown, a war chaplain, will preach at the evening service. A welcome is extended to all war vets to attend this service.

We extend sincere sympathy to Mrs. W. T. Pettifor on the death of her mother in London, England.

### ST. PAUL'S UNITED CHURCH

Sunday, Feb. 3:  
11 a.m., Morning worship. Rev. Mr. McKelvey will be the guest speaker.

12.15, Sunday school.  
The regular meeting of the Ladies Aid will be held on Thursday, Feb. 6, at 7.30 p.m. at the manse. All members are requested to attend.

### MISCELLANEOUS SHOWERS

A miscellaneous shower was held in the Italian hall on Wednesday evening of last week in honor of Mrs. E. Fabro, nee Mary DeCecco. Hostesses included Mrs. F. DeCecco, Mrs. W. Field, Miss Irma McLeod, Mrs. W. Kinnear and Mrs. H. Hulbert.

Bridge and bingo were played, bridge winners being Mrs. S. B. Ryan, Mrs. J. Kinnear jr. and Mrs. Dave Pow. Bingo was won by Miss Frieda Spievak.

The honored guest was the recipient of many beautiful and useful gifts, for which she ably expressed her thanks.

A very lovely miscellaneous shower was held at the home of Mrs. John Salus on Wednesday, Jan. 16, in honor of May Ramsay.

Whist and bingo were played, bridge winners being Mrs. Peter Topak and Mrs. Jim Lowe. A bean contest was won by Mrs. V. Siska.

A dainty lunch was served by the hostesses, Mrs. J. Salus and Mrs. Russell Vincent. The guest of honor was presented with a beautifully decorated basket filled with lovely gifts, for which she expressed her sincere thanks both for the gifts and for the kindness shown her. The party came to an end at midnight with the singing of "For she's a jolly good fellow."

### The Spanish Main

Although RKO Radio's new Technicolor spectacle, "The Spanish Main," is a rousing action-romance of buccaner days, there's a lot of solid historical fact woven into its exciting plot.

In the film, Paul Henreid portrays the captain of a Dutch merchantman driven ashore near Cartagena, where the haughty Governor of New Spain sells the crew and passengers into slavery and sentences Henreid to be hanged.

Not relishing the thought, he escapes and becomes a buccaner, preying on Spanish commerce with his fellow "Brethren of the Coast." He delivers a crushing blow to his enemy by capturing the Governor's fiancée and marrying the lady himself.

## THANK YOU!

"I wish to express my grateful thanks to the Overseas Welfare Fund, for the monthly gift of cigarettes, to the Ladies Auxiliary, B.E.S.L., for their much appreciated Christmas parcels, and to the citizens of Coleman who contributed so generously to the funds of these two organizations and so made the gifts possible.

J. J. SIKORA.

Mr. Hinchey was transferred to the Alberta sales division a year ago. Mr. Knight has been a member of the Robin Hood sales organization for the past 14 years.

## Ed. Ledieu Gets An Eight Ender On Sam Bannan

Perfect End Attained in Cole's Competition Sunday Afternoon; Sam Called it a Day Following Ed's Feat.

The dream of all curling skips is to one day get a perfect end against his opponent and mark up eight points on the score board.

On Sunday afternoon while playing Sam Bannan in the Cole's competition, Ed. Ledieu attained the perfect end, keeping Sam's rocks out of the house while he and his men, with perfect weight, crowded the eight of their own rocks in to score.

It was on the eleventh end that Ed. made history in the local arena. Five of his rocks were crowded at the back of the house with sufficient space between them to allow rocks to pass through. Sam hadn't a rock in the house when he came to throw. His first one went through. Eddie put his first rock in the house to get seven rocks in. Sam had perfect weight in his second rock and came to rest on the bottom to lay shot. Eddie sized up

the situation. If he hit the shot rock on the nose it would slide through a port at the back of the house and he would get an eight-ender.

Cool as a cucumber he took perfect aim, hit the broom, had perfect weight and hit the shot rock just as he wanted to, the opposing rock sliding harmlessly through the port to leave eight shots, a perfect end, for the Ledieu rink.

Howling and laughing took the place of silence and acute anxiety on the part of both rinks, one for the success of the shot, the other for failure of the shot.

When the perfect end had become a reality Sam called it a day and the game came to an end at the eleventh.

Ledieu's rink consisted of Bill Roughhead, Rene Buydens and Roy Foster.

Among those on Bannan's rink was none other than Jim Anderson, formerly of Coleman, but now with the Blairmore Club. Jim just shook his head and grinned when teased over the eight-ender and not having been able to do anything about it.

Christmas Seal dollars are not charity. They are an investment in the protection of your home. Have you sent yours?

## Krzywy, Coleman, Dancey, Blairmore, Won 'Spiel Trophies

Krzywy Won Pontiac Cup While Dancey Won Studebaker; Eights Reached in Cole Trophy.

Steve Krzywy's rink curled its way through stiff opposition in the Pontiac competition to beat the Riva rink, of Bellevue, in the final and bring the handsome trophy to Coleman. Dancey, of Blairmore, who had played a steady game all through the 'spiel, came through to win the Studebaker against Parker, of Bellevue.

Krzywy was down 0-6 in the final before his team came to life to win going away. Steve attributed his good work to his rink comprising Joe Lipowski, Jack Mitchell and Ross Foster and also to the vocal support which he received from his club mates who motored to Blairmore to encourage him to win for "dear old Coleman."

Bill Antle, who had played strongly through the first two Sunday days of play without a loss, entered the fours in both the Pontiac and Studebaker events and then promptly lost two in a row.

The Cole competition is well advanced. This is known as the consolation event as the trophy is supported by the Bellevue club, sponsors of the bonspiel. It has narrowed down to the eights and finds three Coleman rinks, J. Kerr, Jack Chalmers and George Jenkins, in there along with Bill Kerr and Victor, of Bellevue, and Hobson, Bruning and Telfer, of Blairmore. The final will be played next Sunday.

## Nelson Juveniles Defeated Coleman In Exhibition Series

(Jim Cousins)

Nelson juveniles visited Coleman on Saturday and Monday, Jan. 26 and 28, to play a two-game series with the local juvenile team.

Nelson has a smooth-working club that specializes in fine combination plays and clog checking and succeeded in winning both games.

Coleman was forced to use several midget players owing to injuries to several members of the regular team. However, they played with such dash that the large crowds of both nights were on their feet most of the time as play moved from end to end with almost no letup.

In the first game Nelson's first string of Hyssop, Koehle and Perrier were outstanding, with Koehle getting two goals and one assist, while Ford with two goals and Krzycka with one made up Coleman's compliment. The Nelson second line of Stuart, Macintyre and Maglio scored the deciding goal to make it 4 to 3. Antonenko, Sullivan and Cherry showed up well in both defensive and offensive work, and very few penalties were handed out.

In the second game, Coleman showed much better combination than in the first game, and succeeded in tying up the Nelson first line, but the second line showed the greatest strength, with Macintyre netting three goals, while Perrier and Koehle got one each.

Coleman's Krzycka-Kovack combination was winning in fine form, but superb goal-keeping by McNabb held them to one goal.

Coleman seemed to be far better than on the Saturday and the game seemed closer in spite of the 5-1 score, for Coleman was never outclassed. A little better net finish spelled the difference between defeat and victory. Cherry and Sullivan were the star defencemen, while Antonenko, Ford and Salus came so close on several occasions that the crowd thought the puck to be in the net, but the red light failed to even flicker.

A fine sporting crowd attended both games, and Coleman were able to meet their guarantee, even with a 25 cent admission. The series was a fine experience for both teams, and the fans can thank those in charge of midget leagues in both towns for the development of such high calibre "homebrew" clubs.

## Rebekahs Instal Officers For 1946

D.D.P. Mrs. I. Nelson in Charge of Installation; Guests Present From Other Pass Rebekah Lodges.

On Tuesday evening, Jan. 15, the installation of officers for 1946 was held by Victoria Rebekah lodge. The installation was presided over by DDP Mrs. I. Nelson and her staff of Mrs. J. Shields, Mrs. M. E. Cornett, Mrs. J. Yates, Mrs. W. White and Mrs. R. Vincent.

Present were a number of members from Rebekah lodges in the Pass towns. DDP Mrs. Nelson, in appreciation of her work, was presented on behalf of Victoria Rebekah lodge with a beautiful mirror. Lunch was served at the close of the meeting, at which time Sister R. Dunlop, PVP, presented Sister A. Naah with her Past Grand Jewel.

Officers installed for 1946 include: J. P. G.—Sis. A. Vincent, N. G.—Sis. A. Naah, R. S. N. G.—Sis. R. Dunlop, L. S. N. G.—Sis. I. Boulton, V. G.—Sis. E. Cox, R. S. V. G.—Sis. P. Yates, L. S. V. G.—Sis. C. Ash, Warden—Sis. M. E. Cornett, Chaplain—Sis. M. Higginbotham, O. G.—Sis. G. Wellson, I. G.—Sis. N. Easton, R. S.—Sis. C. Lonsbury, F. S.—Sis. F. Kerr, Treasurer—Sis. M. D'Amico. On Thursday evening DDP

Mrs. Nelson with her staff, lacking only Mrs. Yates, motored to Blairmore, where they installed the officers of the Blairmore lodge for the 1946 term.

## 200 Elks Thundered Into Coleman On Thursday Night

Held Joint Installation of Blairmore and Coleman Officers in Respective Lodges; G. E. R. Bro. F. N. Haney Present.

Two hundred Elks from Calgary, Macleod and other prairie points thundered into town last Thursday evening by means of private cars and chartered bus to help the Blairmore and Coleman lodges hold a joint installation of officers for 1946. The installation was held in the Community hall.

The Grand Exalted Ruler, Bro. F. N. Haney, of Calgary, paid his official visit to the Pass lodges and watched DDGER Bro. Dan Boyle, of Macleod, install the officers into their respective offices. Bro. Boyle was accompanied by 40 members of the Macleod lodge.

Following the business session a Dutch supper was served the guests by Bro. L. S. Richards, to which everyone did full justice. A very pleasant social evening was held. Bro. Harry Parkinson playing on the xylophone and everyone taking part in community singing.

Coleman members elected to office are:

Exalted Ruler—A. Wilson, I.P.E.R.—G. Jenkins, Leading K.—F. Kyncl, Loyal K.—S. Krzywy, Lecturing K.—Joe Jenkins, Secretary—J. M. Rushton, Treasurer—A. M. D'Aluca, I. Guard—W. Bereska, Tyler—B. Gentile, Chaplain—R. Tiffin, Esquire—G. Rushton, Trustees—J. D'Appolonia, 3 yrs. Organist—B. Bond, Historian—J. E. Wood, Blairmore members elected to office are: Exalted Ruler—A. R. Bourne, I. P. E. R.—E. B. Jones, Leading K.—J. L. Green, Loyal K.—C. R. Coover, Lecturing K.—W. H. Sandall, Treasurer—C. A. Freeman, Secretary—R. C. Old, Inner Guard—S. J. Scott, Tyler—J. H. Pratt, Esquire—H. M. Dansey, Chaplain—G. Meffan, Trustees—M. Van Wyk, Alec McKay and J. McPhail, Organist—H. Mark.

## Jim Lowe New President Of Canadian Legion

Wins Over George Derbyshire in Vote; J. Goulding New Vice-President; R. Parry Remains as Secretary.

Election of officers for 1946 was held at the Canadian Legion on Sunday.

A straight vote between George Derbyshire, president for the past several years, and Jim Lowe was held with Lowe obtaining the majority of votes. Mr. Lowe was vice-president of the Legion in 1945 and is also a member of the town council.

A second vote was held to decide who should be vice-president. Two candidates were nominated, they being J. Goulding and Bert Garrett. The majority of votes were cast in Goulding's favor and he will hold office in 1946.

The executive includes Ellis Derbyshire, Harold Turner, Neil Fleming jr., Jim Lloyd, R. Parry, A. McCulloch, Ivor Morgan, Bob Lloyd and E. X. Hill.

From the executive R. Parry was chosen for the position of secretary-treasurer, a position he has held since the death of the late Harold Houghton last year.

Honorary president, J. J. McIntyre; hon. vice-presidents, J. Ramsay, Les McDonald, R. R. Patterson, W. Dutil and George Derbyshire sr.

Among the executive are young men who have just recently returned from overseas and who are now taking an active interest in the business affairs of the Legion.

## Pythian Sisters Hold Installation Of Officers

Grand Chief Ethel Hill Paid Official Visit to Local Temple; Turkey Supper Enjoyed.

(A.P.) The Pythian Sisters of Coleman

entertained in honor of their Grand Chief Ethel Hill, who paid her official visit to the local Temple. It was really an honor as she is a member of our own temple. Also during the evening we held initiation and also installation of officers. Officers installed for 1946 include:

Past Chief, Amy Penney, Most Excellent Chief, Mary Balloch, Ex-Senior, Ethel Kostelnik, Ex-Junior, Mary Clarke, Manager, Beatrice Hopkins, M. of R. & C., Evelyn Hopkins, M. of Finance, Elizabeth Richards.

Protector, Dorothy Kennedy, Guard, Nora Houghton, Pianist, Nora Goulding, Press Corres., Amy Penney, Grand Repres., Nora Goulding. During the meeting, M.E.C. Amy Penney presented Grand Chief Ethel Hill with a gift from the officers and members of the Temple, for which the Grand Chief expressed her thanks. Additional presentations were made by Past Chief Nora Goulding to Evelyn Hopkins in appreciation of her three years work as Mistress of Records and Correspondence and to Amy Penney in appreciation of her work as Most Excellent Chief during the past year, the recipients ably expressing thanks.

Following the close of the business session a turkey supper was served by the social committee to the members and their friends.

Cards were played, prize winners being Ethel Kostelnik and Mary Trots.

## PEE WEE MATCHES HELD SUNDAY

In the pee wee hockey league the Lions defeated the Eks 1 to 0 and the Lions beat the Pattinsons 2-0. League standing: W L Pts Lions 3 0 6 Eks 2 1 4 Pattinsons 1 2 2 Boring 0 3 0 Score: Bill Petrunik (Eks) 4 1 5 Eddie Glowacz (Lions) 3 2 5 Albert Gettman (Eks) 4 0 4 Alois Hatalek (Lions) 2 1 3 Walter Zur (Lions) 3 0 3 The match held between the Midget Buffaloes and Shamrocks ended in a tie of 2-2.

WORLD HAPPENINGS  
BRIEFLY TOLD

The quinquennial census of the prairie provinces will be taken this year, beginning in June.

In Hayward, Calif., Harold Sexton was arrested for overworking his taxi. His payroll: 15 passengers.

A number of houses at Broadstairs, England, were damaged severely by a blast when a sea mine exploded on the shore recently.

Britons who have a plane and a licence were authorized to start flying again on Jan. 1. Many areas remain restricted, however.

Fourteen dozen yellow and white chrysanthemums were flown to England recently, the first flowers from the Channel Islands since 1939.

A use has been found for 30 life-size photographs of Hitler, seized at the German embassy. They'll be used to decorate darts boards in London.

A special award of the defence medal has been made by the King to the Duchess of Kent, in recognition of her services as commandant to the Women's Royal Naval Service.

A royal prayer book written in 1500 was sold for £1,000 (\$4,500) at Sotheby's auction rooms, London. It was once a gift from the King of Navarre to his daughters' governess.

Alberta's population has increased by nearly 41,000 during the past year, so recent book statistics indicate. The greater part of this increase is believed to be due to the return of discharged servicemen.

Strathclyde, Scotland, has no singing telegrams, but they are often shouted across the river which separates the post office from this Inverness village. When flood conditions prevail the stream is impassable.

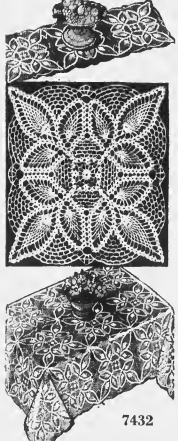

## Poultry Pests

The Common Biting It Often Troublesome To Poultry

Usually considered only as a pest to man, the common boding and several other allied species are often troublesome to poultry. Only at night when a blood meal is required, the bugs search out their victims, and at other times secrete themselves in cracks and crevices. Small, elongated white eggs are deposited in these hiding places, up to 200 eggs being laid by each female. The young bugs produced from these eggs are similar in appearance to the adults but are paler in colour, their only food like that of the adults being blood. They can live, however, for several months without a meal. The life-cycle from egg to adult may be completed within six weeks but is often much more prolonged.

One of the simplest and most satisfactory control measures for infested chicken houses is to spray all cracks and crevices in woodwork and roosts with cresote oil or crude petroleum. If complete eradication is not effected by this treatment, it should be repeated after about ten days.

## Three For Scarf

7432

by Alice Brooks

Such relaxing needlework, this crocheted scarf — so lovely, used singly or joined! Only 20 make a 64 x 80-inch cloth in string! These crocheted squares, 12 inches in No. 30 cotton, 16 inches in string, have many uses! Pattern 7432 has directions, stitches.

To obtain this pattern send twenty cents in coins (stamps cannot be accepted) to Household Arts Department, Winnipeg Newspaper Union, 175 McDermott Avenue E., Winnipeg, Man. Be sure to write plainly your Name, Address and Pattern Number.

## RADAR FOR WHALERS

Several British whaling expeditions are to be equipped with radar apparatus and means are to be provided for taking bearings on whales both on and below the water.

Conscience is what makes you tell your wife something before somebody else does. 2657

Maj. Allan Brooks at His Easel

**WORLD-FAMOUS ORNITHOLOGIST DIES IN B.C.**—Major Allan Brooks, 76, D.S.O., famed the world over for his bird illustrations and well-known ornithologist, who recently died at his home in British Columbia. A student of birds all his life, he wrote many articles in leading ornithological journals in Canada, Britain and the United States.

## Precision Engineering

Machines Developed in Britain For Wartime Purposes

Examples of the skill of British precision engineering which revolutionized war production and which will help to win the United Kingdom's peace production drive were on show for the first time in London. They were seen at the London Exhibition of the United Kingdom gauge and toolmakers.

The most striking feature of the exhibition is the number of entirely new machines developed for wartime purposes which can be turned straight over to peacetime production. For example, there is an air operated multiple gauge designed for the highspeed testing of cannon shells. The gauge enabled toolmakers to test up to nine hundred shells hourly with dial registering errors of half a thousandth of an inch in each of six different dimensions. Each of these machines used in United Kingdom war factories saved ten thousand man hours a year. Another example of wartime engineering achievements available for increased peacetime production is a cam milling machine built by the Coventry Gauge and Tool Co. It turns out form millings in any desired shape to an accuracy of one millionth of an inch in any direction.

Several types of gauges working to the limits of one millionth of an inch are exhibited. One of them records on a loud speaker when the dials are in position for accurate reading.

British precision industries' wartime achievement constitutes one of the most spectacular stories of the United Kingdom war record. Before the war half of the fine measuring instruments used by United Kingdom engineers came from overseas. The precision industry responded by increasing its output ten times its prewar volume.

The high quality of British engineering goods is due, to a considerable extent, to the precision tool supplies by the precision tool manufacturers. But this equipment is also available for overseas and the London exhibition is being visited by large numbers of precision engineers interested in purchasing the new peacetime machines.

## Canadian Authors

A Drive To Establish A Fund To Assist Writers

A drive to obtain an adequate capital endowment for the assistance of outstanding Canadian authors who find themselves in pinched circumstances through age or infirmity is an objective of the Canadian Writers' Foundation.

The Foundation, organized in 1931, was incorporated last year. One of the originators and chairman of the present executive is Dr. Pelham Edgar of Toronto.

"In the lifetime of the literary artist, even the man of high genius, neglect and the poverty it engenders are the fate he not infrequently encounters," writes Wilfred Eggleston, honorary secretary of the Foundation. "Until 15 years ago, if a Canadian writer fell upon days of adversity when his productive years were over he was entirely at the mercy of such casual or desultory aid as might appear. Since then a national organization has been seeking, modestly at first, more ambitiously now, to grapple with the problem on a scale commensurate with the need."

At the time the Foundation was organized, the economic depression discouraged a public appeal, but from 1933 to 1943 a small annual appropriation was obtained from the Dominion government. At present there is no government assistance. For 10 years the chief beneficiary was Sir Charles G. D. Roberts, whose prose and poetry had done much to make the Canadian life known to the nation's people and abroad. Present beneficiaries include an outstanding poet who is just recovering from a two years' illness, and a novelist who two years has been ill and unable to use his hands.

## OIL WELLS IN BRITAIN

England now has 240 oil wells, producing about half a million barrels of crude oil a year. They were drilled during the war by an Oklahoma contractor for the British government.

Since 1686, there have been 21 major earthquakes in Japan, each of which has killed more than 1,000 persons.

## WILL VISIT CANADA IN AUTUMN

—Rev. Geoffrey Francis Fisher, Archbishop of Canterbury, will visit Canada and the United States next September. It has been announced. He has accepted an invitation from the prime minister of Canada to attend a general synod at Winnipeg, Sept. 4, and from the presiding bishop of the Protestant Episcopal church in the U.S. to attend a general convention at Philadelphia, Sept. 8. This will be the first time an Archbishop of Canterbury has visited Canada.

## Seems Very Odd

But Industrial Accidents Often Happen Where People Seldom Go

In a memorandum issued to industry throughout Ontario, E. B. Morley, general manager of the Industrial Accident Prevention Association, comments on accident causes. He says one of the odd things about industrial accidents is the number of men and women who are injured in "the place nobody goes." He cites the case of a man caught on a revolving shaft while painting the ceiling of a plant. The argument against using a safety set screw was that nobody ever went up to the ceiling and consequently could not get caught. Warning industrialists to be doubly careful in "the place nobody goes," Mr. Morley says, "too many are hurt there in just the same way 'unloaded' guns have killed too many people."

## COMFORT TEMPERATURE

The human body is so constituted that it functions best at temperatures of 60 to 70 degrees for those who wear civilized clothing and at somewhat higher temperatures for unclothed people.

## PASTEURIZATION CAMPAIGN GAINS FURTHER SUPPORT

Support for the current campaign of the Health League of Canada which is aimed at obtaining compulsory pasteurization of milk through the nation came recently from two authoritative sources—the Dominion Council of Health and the Parliamentary Voluntary Committee on Health.

At present, Ontario is the only province with compulsory milk pasteurization legislation on its statutes. The Dominion Council of Health, at its annual meeting here, passed the following resolution:

"Be it resolved that the Dominion Council of Health... commend the campaign recently undertaken by the Health League of Canada to encourage the pasteurization of milk throughout Canada."

The Council membership includes the federal and provincial deputy ministers of health.

The Parliamentary Committee approved the following resolution:

"Resolved that this Voluntary Committee on Health... members of the Senate and House of Commons go on record as expressing the opinion that universal pasteurization of milk is in the interest of the Canadian people. That as this matter does not come within federal jurisdiction we express the hope that the provincial governments will again consider the possibility of enacting legislation to enforce pasteurization."

## A Favored Country

Canadians Should Realize What They Have To Be Thankful For

A St. Marys resident was heard to say on the day after the New Year holiday, that he was literally fed-up on too much turkey, dressing, plum pudding and mince pies and that he would be glad when the last of the fowl were eaten up and the ordinary not-so-rich fare was substituted. There are not many in this district who fared less well, as all kinds of fowl and other good things were in abundance here and some families had as many as four turkeys to spread over the two holiday periods. To those who have just come home from Europe, it was a great time of feasting, of good cheer and good fellowship, but in the back of one's mind there has always been the thought that countless thousands across the Atlantic were having less to eat than ever in the days of desolation after the Second World War. There are a lot of things Canadians can be thankful for but probably the greatest is this wealth of food and fuel which we enjoy, even with the rationing restrictions in force. St. Marys Journal-Argus.

## WHAT OIL FIELDS ARE

Oil fields of the world actually are graveyards of animals and plants which have been subjected to millions of years of heat and pressure beneath the earth's surface.

## LIFE'S LIKE THAT

By Fred Neher

"With the comic books he reads and the radio serials he listens to, you're simply wasting your time trying to frighten him with threats."

## REG'LAR FELLERS—Heating Problem Solved

## Weekly Ration Fashion for a family of four

SUN.	MON.	TUES.	WED.	THU.	FRI.	SAT.
Roast Lamb	Curry of Lamb	Vegetable-Egg Scallops	Beef-steak & Kidney Pie	Frankfurters	Fish Dish	Stuffed Flank Steak
Group B	left-over roast	unrationed	Group B	Group E	unrationed	Group B
3 lbs.			3/4 lb. beef round (kidney unrationed)	1 lb.		1 1/2 lbs.
2 coupons			4 tokens	3 tokens		1 coupon
1 token for 6 ounces of cooked meats						

The family's penchant for a Sunday roast could be pleasantly met by a three pound rolled shoulder of lamb. A tempting remake for Monday would be a tasty lamb curry. Aside from this, you may have some useful odds and ends for luncheon sandwiches. A vegetable-egg scallop can appezingly and satisfyingly solve the problem of a meatless meal for Tuesday. Just alternate layers of the family's favored vegetables, hard cooked eggs, and flavoured cheese sauce, top with nuttered crumbs and oven heat until bubbling and browned. Good companions for it would be hot scones and a crisp cabbage salad. Steak and kidney pie on Wednesday is an excellent dish to tastefully and nutritiously satisfy your appetite. For Thursday, plump frankfurters, along with sauerkraut and jacket boiled potatoes, are suggested for appealing thrift. And on Friday unrationed fish, done to your liking, will bring the goodness of the sea to your table. A flank steak encircling a savory dressing will take care of Saturday's dinner. It should leave you with a comforting something to tuck away in the ice box. You may care to devote the remaining token of the week to 6 ounces of cooked meats for luncheon menus, or to augment the cold sliced flank steak for Sunday supper.

Wednesday is an excellent dish to tastefully and nutritiously satisfy your appetite. For Thursday, plump frankfurters, along with sauerkraut and jacket boiled potatoes, are suggested for appealing thrift. ## Train Pipers

Poles Were Taught To Play The Bagpipes

The Pibarsch School of Scotland helped train 93 Canadian army pipers during the war, in courses given at Edinburgh Castle. Pipe Major William Ross, M.B.E., noted Scottish bagpipe instructor, taught 712 pipers from British Dominions and even Polish forces during the last six years.

Canadians who attended more than one course on the four winds of pibarsch, included Pipe Majors Esson, Vancouver; Neil Sutherland and Malcolm MacKinnon, Calgary and Sgt. Armstrong, all of the Scottish Highlanders of Canada; Pipe Major D. Sutherland, Canadian Black Watch; Pipe Majors Duncan and Scott, Camerach Highlanders of Ottawa and Pipe Major Noble, Argyll and Sutherland Highlanders of Canada.

There are more than 130 species of trees in Canada.

## Something Universal

Back Seat Driver Is Not Peculiar To Any Country

Sometimes it seems that the Russian people are as remote from our understanding as they are from our sight. For example, it must have seemed odd, if admirable, to many Canadians that a Russian husband and wife should have bought a tank with their own money, operated it in Poland, Czechoslovakia and Germany, and killed 160 enemy soldiers. But if the Canadians read to the end of the story, they would have found that the husband did the driving and the wife did the bossing. The back-seat driver, then, is a Russian institution, too. Knowing that, we somehow feel that world brotherhood is a possibility after all. Kitchener Record.

## PLANNED REFORMS IN ASIA

The British took the island of Cyprus from Turkey in 1878 as part of a plan for the introduction of reforms in Asia Minor.

#### OUR COMPLETE SHORT STORY—

### HUNTER'S MOON

— BY —  
DON CAMERON SHAFER

THE CHICAGO SUN SYNDICATE

THREE long and valiant years ex-  
pected for this day. Now he was home  
again. Home to his beloved moun-  
tains.

That was the day of days—the first  
day of deer hunting. Since he was  
fourteen, when grandfather gave him  
his first rifle, Loren had hunted deer  
and, until he enlisted, he never  
missed an opening day.

The fact that this, therefore, would  
be a different kind of deer hunting  
did not entirely spoil his day. Since  
Loren there would be no still hunt-  
ing, at least not for a long time, no  
trailing of wily bucks, miles and  
miles over the hardwood ridges,  
through dense spruce swamps, hoping  
to outwit a crafty animal for a suc-  
cessful shot. Loren's left leg was  
stiff and weak and the foot dragged a  
little, but he considered himself  
lucky, after the mortal shell burst  
almost in his face, to have a leg at  
all, and thanks to the medics for it.  
That it would be quite impossible to  
stalk and trail a smart old buck  
with one weak leg and a dragging  
foot. But if he could get one, the  
most would be more than welcome  
at his home down in the valley.

The bright leaves came floating  
down. Though Loren walked slowly,  
and with a noticeable limp, his worn  
shoes made no noise in the old  
hummer road. Dark eyes studied the  
trail sign and sharp ears were alert  
to every forest sound. Mark of a  
spring fawn's little feet beside the  
slender hoof prints of the mother doe.  
The rounded deep impressions where  
a heavy buck had passed.

At Wolf Rock, Loren left the old  
log road and made his way slowly  
and carefully to the top of Windy  
Ridge, connecting Cat Mountain with  
Old Tobie, where he knew of a natu-  
ral deer crossing. This was a likely  
place to intercept a buck disturbed  
by drivers on the opposite ridge  
and seeking safety in the rocky heights  
above. In the distance he heard a  
rifle shot, another and another.

"One shot meat," repeating the  
old saying to himself, with a grin.  
"Two shots maybe, three shots salt  
pork for supper."

At the top of the ridge he selected  
a convenient rock, where he could  
stretch out his aching leg and rest

his back against a tree. The warm  
October sun filtered down through  
the lacy pattern of interlaced  
branches overhead. High against the  
blue a red-tail hawk swung in tire-  
less circles. A quill rustling porcu-  
pine lumbered past. A flock of little  
red, capped birds twittered their  
happy way southward through the  
treetops. A tiny weasel, changing  
from summer brown to winter white,  
raced in and out of rock crevices  
hunting deer-mice. Then, far down  
the slope, a shadow moved. Watching  
closely, Loren saw that it was a big  
buck, and coming his way. Ordinarily  
this buck would have been bedded  
down for the day. Evidently it  
had been aroused by hunters and  
knew that it was being hunted.

THE buck came slowly up the  
wooded slope, antlered head  
swinging low, stepping carefully to  
make no noise, taking full advan-  
tage of the cover. Loren knew that  
a buck runs only as a last resort,  
with long legs and specially developed  
muscles to carry it bounding over  
twelve foot obstructions, leaping  
thirty and more feet at a stride.  
Every few careful steps the buck  
stopped and when motionless was  
quite invisible in its protective fall  
coloring. But Loren could see the  
big ears turning this way and that,  
to catch every sound vibration, and  
he remembered old hunters insist that  
bucks have special hearing devices in  
their legs to register the slightest  
earth tremor.

As the buck came nearer, Loren  
could see that it had been wounded.  
From time to time it turned to lick  
a bleeding cut high on the left  
quarter. It fairly crawled up a shallow  
ravine, ducking under a windfall  
it easily could have jumped  
over, but that would be too con-  
spicuous.

Nearing the top of the ridge the  
buck "froze", breathing deep—evi-  
dently a bit of man scent warned it  
of danger ahead. A few slow and  
cautious steps and it laid down in a  
small hollow, with only the antlered  
head, on long neck raised to watch  
polished horns looking like a bit of  
dead brush. Then Loren saw the  
hunter coming up the slope, a heavy  
man in red mackinaw coat, noisily  
crushing dry leaves, watching the  
woods ahead, automatic rifle ready,  
but paying no attention to the faint  
trail. The red coat passed within a  
few yards of the hidden buck, never  
suspecting it was there, and dis-  
appeared down the hill.

Loren was so engrossed watching  
these safety precautions of the  
hunted that he almost forgot that  
he was the hunter, with a loaded  
rifle across his knees. Now, at point  
blank range, he remembered the gun.  
Waiting until the buck's head was  
turned, he raised the rifle quickly. In  
that instant, as his eye sought the  
rifle sights, there flashed through his  
mind the memory of another hunt.  
He saw a wounded Yank, helmet  
and rifle gone, in torn GI uniform,  
splashing through the muck and  
water of a rice paddy, in a hail of  
bullets, falling and rising again and  
again. Excited lips splashing after  
him, screaming, shooting, racing  
from all sides to head him off, to kill  
him. The hunted man ran limping  
down a hedge row, threw himself into  
an irrigation ditch, along which he  
creaked with speed, to gain a maize  
field.

From field to field they harried  
him, beating up the cover, showering  
every movement with bullets. Ex-  
hausted, hurt, the hunted man laid  
hidden when he dared, sinking away  
again when the noisy hunt became  
to close, using all the craft and cunning  
learned from wily bucks he had  
hunted, not always successfully. He  
doubled back, where they would be  
least likely to look for him, and slid  
unobserved into the muddy water of  
the rice paddy. Submerging all but  
his face he covered this with a hand-  
ful of weeds and hid there until  
the darkness and the hunt was over  
for the day.

THE picture faded away—the rifle  
came slowly down.  
"I don't believe I ever will hunt  
again," he said aloud.  
The surprised buck bounded away.  
Loren got up, rubbed circulation back  
into his aching leg, and started  
homeward.

#### Answer Was Surprising

Author Found Out What Josef Stalin  
Likes And Dislikes

When Rosita Forbes, author, jour-  
nalist and traveler, met Josef Stalin  
some years ago—before the war—  
she asked him "what he liked best in  
life—outside the terrific work which  
he had first inspired him, and said:  
"He enjoyed the matter, and said:  
"Days, children, my own people, the  
workers in Germany among whom I  
was raised."

"And what do you dislike most,"  
pursued Miss Forbes.

"The answer," she says, "was sur-  
prising and—directed in an unusual  
rapid murmur to his wife—was ac-  
companied by a smile. With a kettle  
in her hand the young woman trans-  
lated, laughing. He says, large  
mountainous females full of words."

#### PUT TO NEW USE

A factory which turned out poison  
gas at Cape Town for the use of  
South Africa's armed forces in the  
event of an emergency, is to be con-  
verted for the production of the in-  
secticide DDT. The powder will be  
used to fight disease, pests and  
plagues in the Union.

#### RUST LABORATORY

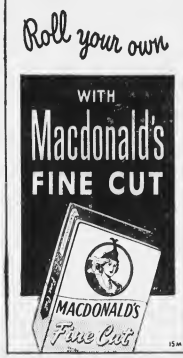

Plant Located At Winnipeg Is Doing  
Good Work

The Dominion Laboratory of Plant  
Pathology at Winnipeg—popularly  
known as the Rust Research Labo-  
ratory—is the centre for investigations  
on rusts, smut, and bacterial dis-  
eases of cereals and flax rust. It is  
responsible for certain investigations  
on root rots of cereals and for the  
seed-borne disease examination of  
flour, elite, and registered cereal  
seed samples originating in  
Manitoba, Ontario, Quebec, and the  
Maritime Provinces. Attention is  
given to some of the other diseases  
of cereals and flax, and to vegetable  
diseases that are locally of economic  
importance.

Laboratory and greenhouse accom-  
modation is provided in the Winnipeg  
Laboratory for the Dominion Cereal  
Breeding Laboratory (Cereal Divi-  
sion, Experimental Farms Service),  
and extensive co-operative work in  
the production of disease-resistant  
varieties of wheat and oats is carried  
on by the staffs of the two Labo-  
ratories. Similar co-operation, although  
necessarily less extensive, is afforded  
the Cereal Division, Ottawa, and the  
Dominion Experimental Farms and  
Provincial Universities in Western  
Canada in respect of the testing for  
disease resistance in new produc-  
tions of cereals and flax.

#### THE ONE QUALIFICATION

Elsa Maxwell, New York's famous  
party woman, defines a lady as "a  
woman who has as much considera-  
tion for others as for herself." There's  
a lot to be said for that. It's the  
change their habits and customs be-  
fore they can measure up to that  
definition.

#### Cosmic Rays

May Develop More Energy Than  
Splitting The Atom

A much greater amount of energy  
than is produced by splitting of the  
uranium atom may develop from use  
of cosmic rays, Chancellor Arthur H.  
Compton of Washington University

said. "Processes have appeared in  
our study of cosmic rays which trans-  
form all of the mass of particle into  
energy," Dr. Compton told the St.  
Louis academy of science. Dr. Com-  
pton was one of the scientists who  
developed the atomic bomb.

#### MACDONALD BRIER CURLING

THOMAS RENNIE  
(Chairman) Toronto, Ont.

Pictured here is the Macdonald  
Brier Tankard and Trustees for this  
emblem of the Canadian  
single rink curling Cham-  
pionship. Chairman Thomas Rennie  
of Toronto, and Senator  
John T. Haig, Winnipeg, are  
original board members. Hon.  
Thane A. Campbell, P.E.I., re-  
places the late Col. Peter D.  
Lyall, Montreal. Cancelled  
late in 1942 to comply with  
Government requests for re-  
duced war-time travel, the Brier  
playdowns will be resumed in  
Saskatoon March 4 to 7, 1946.

HON. THANE A. CAMPBELL  
Charlottetown, P.E.I.

Renewing of this famous curling  
trophy which was cancelled in 1942 to  
comply with Government request for  
restricted travelling, means activity  
all along the line for curlers right  
back to the rinks who play outside  
or under all sorts of improvised  
cover.

Wherever you curl it is all good  
fun, with fine sporting associates.  
You can use jam jars lined with  
sand; moulded cement rocks; even  
blocks of wood instead of regulation  
stones and have a whole of a time.

And many a rink trained under  
these conditions made the big time  
men go all out to beat them when  
they met under ideal conditions, be-  
cause there is no advantage over a  
keen eye or strong arm and good  
judgment, no matter how developed.

Alberta, Saskatchewan and Mani-  
toba all stage big annual competi-  
tions, but the most famous and great-  
est bonspiel in the world is the one  
staged each year in Winnipeg, curl-  
ing cradle of the nation. The Mani-  
toba Bonspiel lasts for 12 days, and  
draws 1,400 curlers from all parts of  
Canada and the United States.

Major factors in the steady growth  
of curling, in addition to improve-  
ments in curling technique, have been  
well-organized and smoothly-func-  
tioning provincial and Dominion as-  
sociations which have done much to  
standardize the game and foster top-  
flight competition.

While sectional and provincial com-  
petitions have long been in vogue, it  
is only since 1927 that playdowns  
have been held to determine the  
Canadian single rink champions.  
Competent observers state that in-  
terest has trebled since inception of  
the Dominion-wide struggle for  
supremacy, which has as its goal the  
Macdonald's Brier Tankard.

The idea for the Canadian play-  
downs stemmed from the eastern in-  
vasion of two Winnipeg rinks in 1925  
and 1926, supported by canyon How-  
ard Wood and George Sherwood, respec-  
tively. The westerners displayed a  
style which had every eastern curler

talking. Sherwood's quartet curled  
off with the Holt Renfrew trophy at  
the Quebec bonspiel, marking the  
first time in history that a western  
rink had captured a major eastern  
trophy.

This was the die cast. Formal  
east-west competition was a natural  
development.

Toronto's famed Granite Club was  
the scene of the initial competition  
March 1, 1927. Nova Scotia, New  
Brunswick, Quebec, Montreal, On-  
tario, Toronto, Northern Ontario and  
the prairie provinces were repre-  
sented by top-ranking quartets.

The Nova Scotia entry, a "selected"  
rink made up from members of the  
Halifax Curling Club and skipped by  
Professor Murray Macneil, copied  
the Tankard. This surprised all but  
the Nova Scotians. The Maritimers  
thus became the first single rink curl-  
ing champions of Canada, and the  
only far eastern rink ever to win the  
Brier competition.

Throughout the years, changing  
conditions have brought about varia-  
tions in the rules governing the com-  
petition. Play for the Tankard is  
controlled by a board of three trust-  
ees. The chairman is silver-haired  
Thomas Rennie of Toronto, prominent  
in Canadian sports circles for many  
years. Other members are Senator  
John T. Haig of Winnipeg and Hon.  
Thane A. Campbell, chief justice of  
the supreme court of P.E.I. Rennie  
and Senator Haig are original board  
members, but Chief Justice Campbell  
replaced Col. Peter D. Lyall of Mon-  
treal, who died more than a year ago.

The last major change in the rules  
governing play in the Brier occurred  
in 1936, when British Columbia and  
Prince Edward Island were brought  
into the fold. Thus, for the first  
time all provinces, with the addition  
of Northern Ontario, were represented.  
Brier competition has since been  
conducted on this basis.

Today, all provinces through their  
associations, conduct competi-  
tions to determine their champion-  
ship rink. With one exception, play

#### BATTLEFORD MUSEUM

Will Restore Historic Portion Of Old  
Police Post

Construction of a Royal Canadian  
Mounted Police memorial and Indian  
museum at Battleford, Sask., is mak-  
ing good progress, according to a pro-  
gress report issued by Natural Re-  
sources Minister J. L. Phelps, hono-  
rary president of the committee in  
charge of the work.

Several buildings on the property  
have been dismantled and the lumber  
sold. This revenue will help in re-  
storing the historic portions of the  
old police post as it existed 75 years  
ago.

The Commanding Officer's house is  
nearing completion and with the  
renovated buildings will serve as the  
principal home for the police mem-  
orial and Indian museum. The his-  
toric detention barracks and police  
barns will be moved within a more  
convenient radius and a stockade of  
rustic poplar will be built to accu-  
rately reproduce the police post.

In addition to the renovation work,  
the surrounding grounds will be beau-  
tified and the Saskatchewan govern-  
ment has undertaken to make more  
land available for a community park.  
Persons who like to donate Indian  
relics and other historical items to  
the museum should communicate  
with Campbell Innes, M.A., North  
Battleford.

#### AIR SEA RESCUE SERVICE

During the European war the Air  
Sea rescue service saved 5,721 air-  
crew personnel in waters around the  
United Kingdom, 32,000 aircrew in  
overseas waters and 4,665 sailors,  
soldiers and civilians in areas other  
than the seas around Britain.

#### RELIEVES MISERIES OF Baby's Cold As He Sleeps

Penetrates the chest and back  
surfaces like a good  
warming poultice.

#### They All Came Back

Another Surprising Case Of The  
Lucky Thirteen

Culled from an English newspaper  
is this strange but authentic story  
of a little village in Somerset named  
Woolley.

From this tiny hamlet in the lovely  
countryside near Bath, 13 young men  
went overseas to fight in the First  
Great War. And when it was all  
over they all came back.

Twenty-two years passed, and 13  
more laid from Woolley went forth  
to serve their country in the Second  
World War. A memorable celebra-  
tion has just been observed by the  
village to mark the remarkable fact  
that these 13 men have also returned  
home safe and sound—Halifax Hir-  
ald.

Man.

#### DINED WITH HATS ON

In the time of Louis XIV of France,  
it was proper etiquette to tip your  
hat at the table. Noblemen dined  
with their hats on, doffing them  
politely when passing the meat or  
sipping a piece of bread.

## LOCAL NEWS

Mrs. J. Kinnear sr. entertained at her home on Saturday evening in honor of Miss May Ramsay, who is leaving shortly for Australia where she will be married. Cards were played, honors being won by Mrs. C. D. Rogers and Mrs. Jane Kellock. A dainty lunch was served after which the honored guest was presented with a gift of silverware, for which she ably expressed her thanks.

Mrs. Irwin entertained at three tables of bridge on Thursday. Honors were won by Mrs. J. Frise, Mrs. R. Vincent and Mrs. Gabe D'Amico. Travelling prize was won by Mrs. M. Fraser.

Mrs. E. Lonsbury entertained at five table of bridge on Monday evening, honors being won by Mrs. J. McDonald, Mrs. J. Hillary and Mrs. Florence Smith. The guessing contest was won by Mrs. J. J. McIntyre.

Mrs. George Kellock, of Midnapore, is spending a few weeks the guest of her sister, Mrs. J. Kinnear sr.

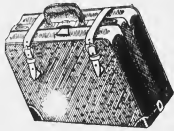

Charles Martland, who has been in the Canadian navy, has received his discharge and is expected home during the week.

Lieut. (NS) Madge LeRoy was the week-end guest of her sister, Mrs. R. R. Pattinson, and Mr. Pattinson. She left for her Macleod home on Monday. Today she is scheduled to leave for Vancouver where she will report to military authorities.

Mrs. E. V. Wood has entertained at bridge parties during the past few weeks. At the first bridge party honors were won by Mrs. I. Neilson, Mrs. T. Flynn and Mrs. E. J. Liesemer. At the second party honors were won by Mrs. J. Nash, Mrs. E. Lonsbury and Mrs. A. Easton.

Mrs. George Burtink has returned home following a trip to Calgary where she received medical attention. She was met in Calgary by her son George, who received attention to his knee which was injured while in the armed services. Mrs. Dino Fidato, of Vancouver, who has been visiting her parents for the past several weeks, awaited her mother's arrival home before leaving with her young daughter, Patricia, for her west coast home.

Local Delegates  
Attended Fish &  
Game Convention

Pressed for Certain Big Game  
Concessions; Local Association to  
Hold Meeting Next Week.

Coleman was represented at the Fish and Game convention held at Lethbridge by Jim Kerr, Andy Dow, Percy Knowles and Carl Sapeta.

Messrs. Dow and Kerr had the floor several times to stress the importance of making certain big game concessions and for restocking the streams and lakes and also fertilizing same. Government representatives assured the convention that steps were being taken both to restock the streams and to fertilize them.

Announcement was made that additional game guardians had been employed by the government and once they were properly trained would be assigned to various parts of the province where game abound.

Many top-ranking speakers on fish and game, both in Alberta and neighboring provinces, were heard in addresses in the convention.

Coleman Fish & Game Association will hold a meeting next week at which time a full report of the convention will be given. It is hoped that all Association members will attend. Notices will be posted giving place, time and date.

Clan Donnachaidh  
Concert Was A  
Grand Success

(M.J.)

The Clan Donnachaidh Society concert and dance in commemoration of the 187th anniversary of the birth of Robert Burns was a decided success. The brisk sale of tickets had made this fact a foregone conclusion. The dance was well patronized. The opinion was voiced that never in the history of human entertainment have so many received so much for so little.

The committee in charge wish to thank the following artists for their generous contribution to the program: Mr. J. J. McIntyre, Mr. George Burles, Mrs. R. Holmes, Miss Betty Hillary, Mr. J. Cousins, Mr. C. Johnson, Mr. S. Hiebhuk, Mr. G. Roper, Miss F. Dibble, Miss M. McLellan, B. Millan, Miss Jean Penman, Miss L. Van Maaron, Miss C. McIntyre, Miss E. Kellington, Mr. R. Laithwaite, the Grade VI class. We also extend our appreciation to all those who gave their assistance in making our Burns' night a success.

On Saturday, following the Burns' night in Coleman, the local pipers journeyed to Michel, where they piped in the haggis in traditional Scottish style and contributed to the evening's entertainment with several bagpipe selections.

Friday evening. The press was absent due to a break in the Dakota plane, crash story Friday evening, five bodies having been brought out late that afternoon.

It is understood that the reports were just a summary of council and board stories that have appeared in these columns during the past year. A vote of thanks was tendered the council and board of trustees for their good work during the past year.

FRANK CHRISTIAN, OF MACLEOD, DIED HERE SATURDAY

Frank Christian, 65, employee of the provincial Public Works Department, collapsed suddenly on Saturday evening and passed away.

Deceased worked on the government snow plow during Saturday and with his partner, Joe Hannerhan, also of Macleod, was making ready to go down town to eat at about 6 p.m. Dr. Liesemer was called to examine the patient, but he had passed away.

The body was taken to Macleod on Sunday with the funeral being held on Wednesday. His widow resides at Macleod.
